

Refrain

All things bright and beautiful,  
All creatures great and small,  
All things wise and wonderful:  
The Lord God made them all.

Each little flower that opens,  
Each little bird that sings,  
He made their glowing colours,  
He made their tiny wings.

Refrain

The purple headed mountains,  
The river running by,  
The sunset and the morning  
That brightens up the sky.

Refrain

The cold wind in the winter,  
The pleasant summer sun,  
The ripe fruits in the garden,  
He made them every one.

Refrain

The tall trees in the greenwood,  
The meadows where we play,  
The rushes by the water,  
To gather every day.

Refrain

He gave us eyes to see them,  
And lips that we might tell  
How great is God Almighty,  
Who has made all things well.

Refrain

## All Things Bright and Beautiful

Please take care of all creatures great and small.

Why not plant wildflowers in your garden? It would help the flowers to spread, and help insects like bees to find food.

Why not feed the birds to help them through the winter?  
Why not put up bird boxes so that they can build nests?

Look after our landscape. Take only photos. Leave only your footprints.

Whatever the weather, get out into the countryside and see what wildlife you can spot.

If you grow fruit, leave some on the ground for the birds to eat. You could help in winter, and at nesting time, by leaving seeds for them to find.

Why not plant a tree? An oak tree can provide a home and food for up to 400 different types of animals. It will live for up to 800 years, and will provide all the oxygen for 2 people for their entire lives.

So, what's keeping you? Why not get out and do one thing for nature today?

Get out and see the wonderful natural world around you, and tell your friends about what you've seen!
